Homeowner's,
Landscapers,
ground
maintenance
providers will
appreciate these
rugged and durable
rotary spreaders.
The large hoppers
provide for
extended use and
the pneumatic
tires glide easily
along the turf.

A .75 cubic foot hopper make this spreader hand and stronger. A rotary agitator stirs material a factory calibration ensure consistent application perfect for the homeowner

With more capacity than the 41RS, this spreader features a rate control system with factory calibrated fingertip adjustment that is perfect for homeowners with large yards

A rugged spreader built with a heavier frame that is powder coated to minimize corrosion

All of the efficiency and accuracy of the RS76 with a stainless steel frame to ensure long life

Side Deflector Protect sensitive flowers and plants from chemicals. The side deflector is simple to attach and is easily repositioned when not needed. Fits the RS76 and RS76S. **81214**
